

ASHFORD PLACE SIDE DOOR COMMUNITY GARDEN
Welcome to our relaxed and vibrant café and garden

We started work on this neglected garden bed in spring/summer 2018. Ashford Place clients and local residents, prepared the bed and planted a variety of flowers and herbs such as

Left & Rear walls: Mock Orange, Shasta Daisy, Pittosporum, Mexican Mock Orange, Lavendar, Zinnia, Yellow Loosestrife, African daisy, Corcsosmia Ice plants, Geranium and

Entrance side of the garden – Red Hot Poker, white Lilies, Geranium, Angels Fishing Rod, Ice Plants Herbs – Rosemary, Sage, Thyme, feverfew and Garlic. Lots of trailing plants as well as lavender, African daisy, Mexican mock orange and mint and parsley on the left and rear walls.

With grants from Brent Council CIL and the West London Irish Society, as well as a design from Alistair Lambert and Dolan Creative Services, we have been able to create this flower bed.

When the seasons allow we will plant a bed containing a variety of vegetables such as onions, courgettes, strawberries and tomatoes to be planted depending on their growing season.

It is weather dependent but the plan is to achieve a full cycle of planting that is dementia friendly, peaceful and also to grow some produce for use in our kitchen and for workshops.

**We look forward to seeing the progress,
and hope you will enjoy our Community Garden.**
